Structural Overview

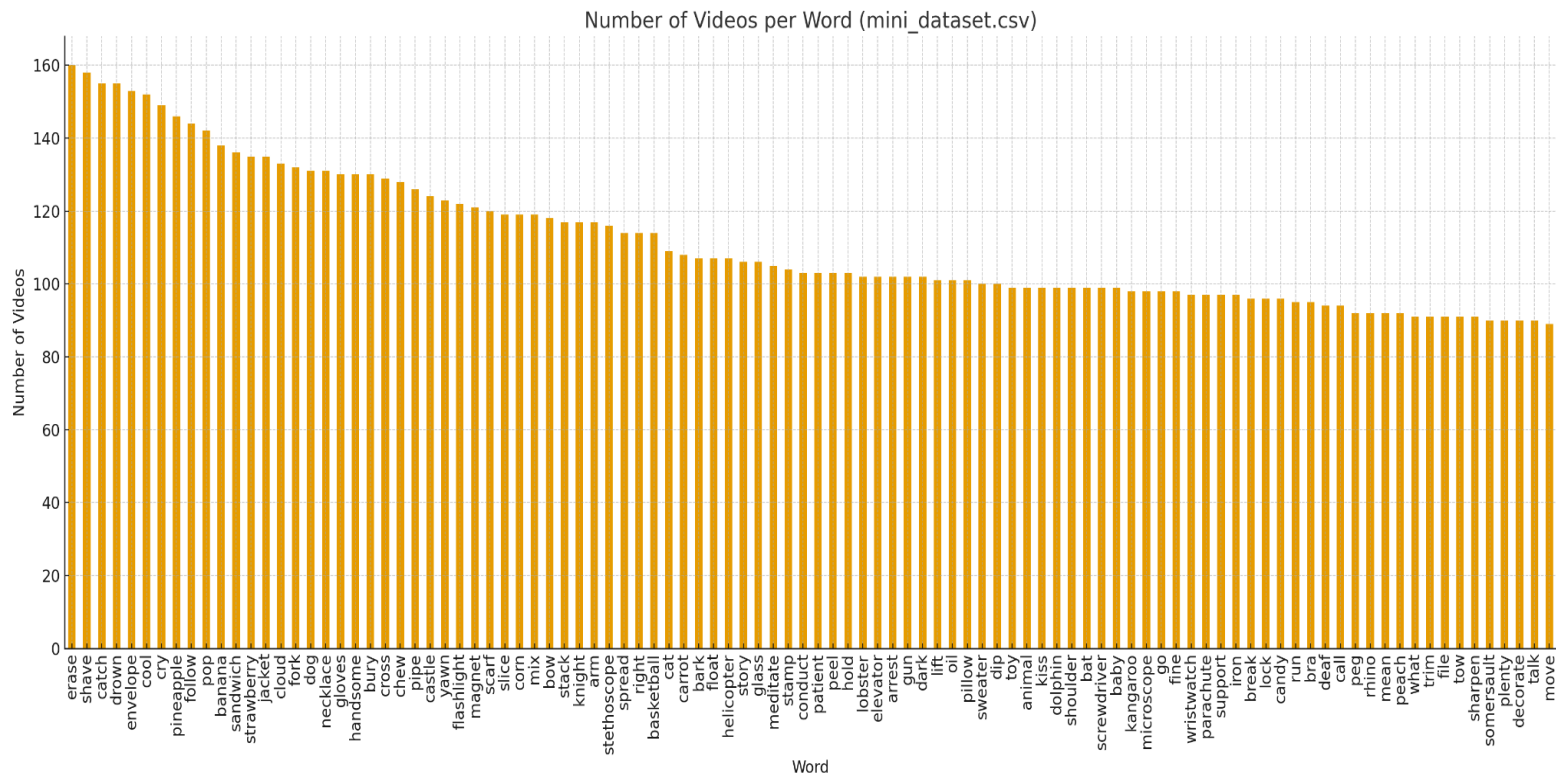

Columns:

- - word (string)
- - videos (string)
- - full_path (string)

Balance Overview

- Maximum samples per class: 160
 - Minimum samples per class: 89
- The Dataset is fairly balanced.

Visual Overview

Usage Overview

Suitable Models:

- Models based on Video Classification
VideoMAE, TimeSformer, I3D
- Models based on Pose Estimation
Mediapipe + LSTM / GRU
- Models based on Frame-based CNN + RNN
 - وهينفع لموديلات 3D CNN
- Transfer Learning Compatibility ودا ال قولتوا هنعمله

وطبعا احنا هنعوز نعمل **Preprocessing** ودا ال هنشرفه ف الملف الثاني بقا
